Anass Badreddine El Hallaoui

+1 581 305 1932 | anass.elhallaoui@gmail.com | LinkedIn | github.com/Dropio12 | badredinne.com

Graduating Apr 2027 · Full-time from Summer 2027 · Open to relocating anywhere in Canada or the US

Education

Laval University | M.Sc. Machine Learning — Expected Apr 2027

Laval University | B.Sc. Computer Science, GPA 3.7, Dean's List (2x) — May 2026

TA: Probability & Statistics, Theory of Computation (500+ students)

The Ohio State University | Exchange Semester, Computer Science — May 2024

Experience

Scale AI | Full Stack Software Engineer Expert (Contract) — Feb 2026 – Apr 2026

- Built **200+ coding tasks** as AI training data, writing problems and ranking model answers.
- Caught bugs, test gaps, and Git issues in AI-written code across **4 languages** (Python, JavaScript/React, Java, C++).

Shopify | Software Engineer Intern, Visual Search — May 2025 – Jul 2025

- Took Shop App's photo search from a hackathon win to **20M+ users**; co-led a 10-person team with PMs and designers.
- Built search over **55M+ images** in under 3s: embeddings, vector search, and a self-hosted LLM writing 7 queries per photo.
- Turned **300+ telemetry signals** into 9 Grafana dashboards and 50+ alerts, and wrote runbooks for on-call engineers.

Shopify | Software Engineer Intern, Infrastructure Security — Jan 2025 – Apr 2025

- Cut internal request latency **10x** by moving services from HTTP/1 to gRPC.
- Diagnosed and fixed a firewall misconfiguration affecting **75+ GCP resources**, incl. systems supporting the CEO's office.
- Got a security-feature PR merged into Redpanda's **open-source C++** code, unblocking Shopify's data-streaming rollout.

Custom AI Solutions (Side Project) | Built AI tools end to end for 4 business clients — 2025 – 2026

- Built a voice AI customer-service agent for a hotel's front desk (Whisper, Twilio, AWS, Redis): **1,000+ guest calls** handled.
- Built a Form.io document workflow used by 10+ law firms: **10,000+ documents** processed, saving about 8 hours per client.

iA Financial Group | Software Engineer Intern — May 2023 – Sep 2023

- Cut payroll processing time **87%** for 17,000+ weekly salaries ($20M+) with an automated Python/C# pipeline.
- Found a critical privacy flaw while reviewing SQL databases and helped fix it, protecting **10,000+ clients'** personal data.

Projects

Cherry Blossom (trycherryblossom.com) | TypeScript, React, Convex, AWS · 2026 – Present — Website

- AI agent that designs circuit boards from plain English and flags mistakes before manufacturing: **1,500+ monthly users**.
- Wrote its TypeScript backend on Convex (**10,000+ boards** built); a design partner's paid pilot became a signed contract.

Used-Car Deal Finder (Hack the North 2026) | Go, Rust, Cloudflare · 2026 — GitHub

- Finds underpriced used cars on 4 listing sites and sends the best deals to your phone: **2,000+ users**.
- Rebuilt it as a Go crawler and a Rust pricing engine (WebAssembly) on Cloudflare Workers, with **180+ automated tests**.

Technical Skills

Languages: Go, TypeScript, JavaScript, Python, SQL, Ruby, Java, C++, Rust, Swift, Kotlin

Full Stack & Cloud: React, GraphQL, Node.js, Rails, Postgres, Redis, gRPC, AWS, GCP, Docker, Kubernetes, Terraform

AI: LLMs, AI agents, embeddings, vector search, voice AI (Whisper, Twilio); Claude Code, Cursor, Codex daily

Leadership & Awards

- **8 hackathon wins** (Stanford 2x, NASA, Waterloo, Shopify); my Shopify hackathon prototype became Shop App's photo search
- **$80K+ in scholarships**, incl. a full-ride U.S. exchange semester; GitHub Community Wall of Fame 2025
- **Top 600 in the Putnam**, North America's top university math competition; on Laval's team in 2024 and 2025
- **Taught 1,500+ students** AI tools in hands-on workshops as Intel & Adobe Software Engineer Ambassador (2024–2025)
